

KoskiMel

Antibacterial

Impregnated surface with extra hygiene protection

Koskisen chipboards are made from genuine wood. Wood accounts for 90 per cent of the boards. Clean raw material ensures that our boards are of high quality and easy to work.

KoskiMel antibacterial is coated furniture board in P2, P2mr and P5 strength grades. KoskiMel products are classified as the best finishing materials, M1 according to The Building Information Foundation RTS.

KoskiMel antibacterial fulfill the standard ISO 22196, where after 24 hours over 99,99% of bacteria has died.

ECO-FRIENDLY

LOW EMISSION

EASY TO CLEAN

EASY TO USE

EASY MACHINING

ANTIBACTERIAL

⊕ ISO 22196 24h <99,99%

⊕ Good surface moisture resistance

⊕ Easy to keep clean

⊕ Easy to work

⊕ The strength of the board is constant in every direction

⊕ Environmentally Friendly

Technical specifications

| | |
|---|--|
| Raw material | Saw dust and wood chips from our own wood industry |
| Base board | Chipboard to meet standard EN 312 |
| Formaldehyde class | Class E1 EN 312 Class E0,5 EN312 and CARB/TSCA for P2 & P2mr on request |
| Coating | Special impregnated coating |
| Colours | White |
| Standard thicknesses & sizes | 8-32 mm: 1830 x 2750 mm, thicker boards until 40mm 1830 x 2630 mm. |
| Density | Depends on the thickness and type of the board 620-770 kg/m ³ (P5), 550-740 kg/m ³ (P2) |
| Emission Classification | M1 emission class for building material |
| Embossing | Wood grain (WG), crystal (CR), soft (SF), smooth (SM), glossline (GL), matt (MT) |
| Cleaning | Clean with soft paper or textiles and weak alkaline detergent; very dirty surfaces can be cleaned with alcohol or with detergent containing alcohol. |
| Other data | Detailed technical values can be found in Koskisen's Declaration of Performance (DoP). Please visit koskisen.com/download . |

Microbe Reduction Rate ISO 22196

Environment

Our raw material, wood is an ecological and renewable material and it stores carbon during its whole life cycle. Koskisen chipboard products are manufactured in Finland according to the strictest sustainability principles. Koskisen is a pioneer in the Finnish forest industry in paying attention to the environment and the wood's supply chain is always known in detail. Finnish forests are primarily privately owned and the owners are guided by a strong commitment to long-term forestry and forest cultivation. Yearly, Finnish forests grow more than they are harvested. This guarantees a sustainable and environmentally sound raw material.

Additional information

Koskisen chipboard is made from our own sawmill's sawdust and contains 85% real wood. Our professional quality control ensures that Koskisen chipboard is always pure and does not include sand or other impurities. Pure and high-quality chipboard is easy to machine and it doesn't damage saw blades. The information, although based on extensive testing, is intended as a guideline only and comes without warranty. We reserve the right to amend specifications without notice. Any defects other than those caused by clearly verified production or service faults by the supplier are the responsibility of the user. Any claim for compensation is limited to the value of the defective panels. The Seller makes no guarantee that the goods are fit for a particular purpose, unless it provides a written declaration of their suitability.
