KoskiVeneer

Customised birch veneer with top quality

KoskiVeneer is a high quality rotary peeled birch veneer. The thicknesses of the veneers are 0,6 mm, 1,0 mm, 1,5 mm.

Our production capacity and excellent raw material availability ensure problem-free deliveries to customers all year round. Modern production technology makes customised birch veneer production possible for almost any special requirement of the furniture and joinery industries.

No compromises are made on birch veneer quality. Professional craftsmen ensure that the production line satisfies the client's dimensional and quality requirements.

KoskiVeneer is suitable especially for veneers for worktops, decorative faces for partitions and walls, laminating to frames, doorskins, moulded shaped/forms, form pressing, laminated veneer planks, dyed veneer and veneer layons.

EASY MACHINING

MULTI USE

INDOOR USE

Additional information

Wood is a living material and every panel is unique. Therefore a photograph or a sample piece cannot represent a full sized panel as regards colours, shades, figure, knots etc. Please note that a slight colour variation is accepted between panels.

The information, although based on extensive testing, is intended as a guideline only and comes without warranty. We reserve the right to amend specifications without notice. Any defects other than those caused by clearly verified production or service faults by the supplier are the responsibility of the user. Any claim for compensation is limited to the value of the defective panels. The Seller makes no guarantee that the goods are fit for a particular purpose, unless it provides a written declaration of their suitability.
