## ZERO - Furniture board

Zero furniture board is made from domestic bio-based raw materials.

In Zero furniture board, the fossil binder has been replaced with a renewably sourced wood-derived binder, lignin. Thanks to its versatility and durability, Zero is perfectly suited to the needs of the furniture industry. It is also available coated with melamine films.

Zero furniture board is used for: cabinetry, furniture, doors, office and shop furniture, kitchen and bathroom furniture, window and curtain boards and other flat surfaces.

### Additional information

Koskisen chipboard is made from our own sawmill's sawdust and contains 90% real wood. Our professional quality control ensures that Koskisen chipboard is always pure and does not include sand or other impurities. Pure and high-quality chipboard is easy to machine and it doesn't damage saw blades.

The information, although based on extensive testing, is intended as a guideline only and comes without warranty. We reserve the right to amend specifications without notice. Any defects other than those caused by clearly verified production or service faults by the supplier are the responsibility of the user. Any claim for compensation is limited to the value of the defective panels. The Seller makes no guarantee that the goods are fit for a particular purpose, unless it provides a written declaration of their suitability.
