Zero

4010 0035

ZERO - Furniture board

Zero furniture board is manufactured using side streams generated in Koskisen's own wood processing operations. In the binder used in the product, a fossil-based binder has been replaced with wood-derived lignin.

Thanks to its versatility and strength properties, Zero is well suited to the needs of the furniture industry. Also available with a melamine surface.

Applications for Zero furniture board include: fitted furniture, cabinet doors, furniture, office and shop furniture, kitchen and bathroom furniture, window boards, curtain boards, doors, panels and other flat surfaces.

ACOUSTIC

NON-ADDED FORMALDEHYDE

EASY MACHINING

EASY TO USE

MULTI USE

- Standard board with many possibilities
- Non added formaldehyde (ZeroPan)
- The strength of the board is constant in every direction
- Easy to work

Additional information

Koskisen chipboard is made from our own sawmill's sawdust and contains 90% real wood. Our professional quality control ensures that Koskisen chipboard is always pure and does not include sand or other impurities. Pure and high-quality chipboard is easy to machine and it doesn't damage saw blades.
The information, although based on extensive testing, is intended as a guideline only and comes without warranty. We reserve the right to amend specifications without notice. Any defects other than those caused by clearly verified production or service faults by the supplier are the responsibility of the user. Any claim for compensation is limited to the value of the defective panels. The Seller makes no guarantee that the goods are fit for a particular purpose, unless it provides a written declaration of their suitability.
