

Non-Added-Formaldehyde (NAF) for Zero Brand Panels Manufactured by Koskisen Oyj

This compliance statement is provided by Koskisen Oyj regarding the manufacturing process of Zero brand panels. We hereby confirm that the manufacturing process of Zero brand panels, carried out by Koskisen Oyj, adheres to the Non-Added- Formaldehyde (NAF) requirement.

The Zero brand panels produced by Koskisen Oyj are manufactured in compliance with CARB NAF regulation, which entails that no additional formaldehyde is introduced during the manufacturing process. These panels are designed to meet the highest industry standards for indoor air quality and safety. The NAF approach ensures that the formaldehyde emissions remain within permissible limits, promoting healthier living and working environments.

By consistently adhering to the NAF regulation, Koskisen Oyj guarantees that its Zero brand panels are free from the addition of formaldehyde, meeting the stringent criteria set forth for safer and eco-friendly construction materials.

For any further inquiries regarding our compliance practices or our Zero brand panels, please free to contact us, Product Manager Eemi Valjakka, eemi.valjakka@koskisen.com.

Sincerely,

Santtu Eilamo
