

KoskiPro

Specialty products

The board of many possibilities

Koskisen chipboards are made from genuine wood. Wood accounts for 90 per cent of the boards. Clean raw material ensures that our boards are of high quality and easy to work.

KoskiPro boards are precision-made products developed in cooperation with customers to respond to their needs as accurately as possible. In addition to size and thickness, customer can also influence the structural strength and surface quality of their boards. A wide selection of coatings are being available.

KoskiPro products are tailored special boards. They can be coated with different painting paper coatings, laminate or phenol film coatings. The coating can be smooth, grooved or slip resistant with friction surface. We develop special constructions to meet customer's individual requirements. Our skilled staff will help the customer at every turn.

MULTI USE

EASY TO USE

EASY MACHINING

ECO-FRIENDLY

LOW EMISSION

-  The quality of the board meets the needs of the customer
-  Wide selection of sizes reduces waste material
-  Favourable solution for many end uses
-  Enviromentally friendly

KOSKISEN

KoskiPro Specialty products

Technical specifications

Raw material	Saw dust and wood chips from our own wood industry
Formaldehyde class	Class E1 EN 312
Thickness	4-50 mm stepless
Sizes	Min. 1200 x 2100 mm Max. 1830 x 3660 or 1315 x 4580 mm
Density	Depends on the thickness and type of board 390-950 kg/m ³
Strength	According to customers requirements
Machining	Drilling of holes edge machining like T&G, chamfer and rebate on request.
Other data	Detailed technical values can be found in Koskisen's Declaration of Performance (DoP). Please visit koskisen.com/download .

Examples of KoskiPro products

Board	Quality	Examples of end use
KoskiPro Heavy	with high strength and density	special flooring, table tops
KoskiPro SD	with non-standard quality	bedslats, bowling alleys, loudspeakers
KoskiPro Light	with low density	door cores, shelving, partition panels
KoskiPro Mel	melamine coated board with special raw board	bedslats, shelving, furniture
KoskiPro Special coated	phenol or melamine film, slip-resistant coating, PP, PPL, paper film, other special coatings, multilayers for coating	ceiling panels, flooring, storehouses, casting moulds, shelving, bottom plates, non-slip surfaces

Additional information

Environment

Our raw material, wood is an ecological and renewable material and it stores carbon during its whole life cycle. Koskisen chipboard products are manufactured in Finland according to the strictest sustainability principles. Koskisen is a pioneer in the Finnish forest industry in paying attention to the environment and the wood's supply chain is always known in detail. Finnish forests are primarily privately owned and the owners are guided by a strong commitment to long-term forestry and forest cultivation. Yearly, Finnish forests grow more than they are harvested. This guarantees a sustainable and environmentally sound raw material.

Additional information

Koskisen chipboard is made from our own sawmill's sawdust and contains 85% real wood. Our professional quality control ensures that Koskisen chipboard is always pure and does not include sand or other impurities. Pure and high-quality chipboard is easy to machine and it doesn't damage saw blades.

The information, although based on extensive testing, is intended as a guideline only and comes without warranty. We reserve the right to amend specifications without notice. Any defects other than those caused by clearly verified production or service faults by the supplier are the responsibility of the user. Any claim for compensation is limited to the value of the defective panels. The Seller makes no guarantee that the goods are fit for a particular purpose, unless it provides a written declaration of their suitability.
