

KORE LININGS & CEILINGS

...
At Kore we offer a wide range of linings with panels that are ready-machined and pre-drilled to suit all common van types.

Quick installation using the included clips and screws

The panels protect the cargo space from scratches and dents during everyday work and allow it to be kept tidy and hygienic

Kore linings contribute to a pleasant working environment and increase your van's resale value. Our linings protect your cargo-space from bumps and dents and keep the loading space neat and hygienic

Last but not least, Kore is able to do special machining to your specific needs according to your drawings or with the help of our CAD and technical team
