

# Safety instructions for visitors to Koskisen's mill area

## Arriving

When you arrive at the mill, **please get in touch with your contact person** or, if necessary, our call centre: (8 am to 4 pm) tel. 020 553 41.

## Traffic and moving around the mill area

Moving around in the mill area is permitted only with your contact person or with their permission. Parking is permitted only in the designated parking areas and as instructed by your contact person.

General traffic rules apply in the mill area. The maximum speed limit is 20 km/h, and moving around in the mill area takes place at your own risk.

When moving around the mill area, always stay on the designated routes. Beware of machines and forklifts, as their drivers have limited visibility. Standing or passing underneath suspended loads is prohibited. Leaving the designated routes is allowed only when authorised and guided by your contact person.

Take note of the assembly points that your contact person shows you.

## Mandatory safety gear

### Plywood, chipboard and thin plywood mills

High-visibility clothing must be worn in the mill area.

Safety shoes, head protection (helmet or bump cap), hearing protectors and safety glasses must be worn in all production areas.

### Sawmill

Safety gear is not required in the office parking area.

When transferring to the mill area, high-visibility clothing, a helmet, safety shoes, hearing protectors and safety glasses must be worn.

### Note!

You may wear your own safety shoes and high-visibility clothing in all areas of the mill. If you need to borrow any safety gear, you can make such arrangements with your contact person.

For tours of the mill, we recommend wearing practical clothing, for instance, long pants.

## Phone use

Using a phone while moving around the production premises and mill areas is prohibited. If you must use a phone in those areas, you must stop at a safe place to do so.

Taking photographs or videos in the mill area without authorisation is prohibited.

## Smoking

Smoking is prohibited in the entire mill area, including in machines and cars.

## Safety observations

All persons moving around in Koskisen's mill area are requested to report any accidents, near misses or other safety observations to their contact person. You can also make a safety observation using the QR code.
