

KoskiSound

Heavy

Sound insulation plywood

KoskiSound Heavy is Finnish birch plywood with 3,0 mm sound barrier in the middle of the board. Boards are composite structures made out of plywood and sound absorbing material. It is an ideal acoustic material for Marine, Railway and ground Transportation.

KoskiSound Heavy is suitable for exterior and interior uses. Reduction of CO₂ emissions can be achieved by using KoskiSound Heavy insulation. Materials are free of hazardous substances like PVC, heavy metals and formaldehyde.

KoskiSound Heavy is suitable especially for floors for railway wagons, bus floors, shipbuilding, engine compartment.

LOW
EMISSION

Technical specifications

Base plywood	Koskisen Finnish birch plywood
Bonding	Phenolic resin according to EN 314-2/ class 3 exterior conditions Formaldehyde emission levels of panels fulfil requirements of Class E1 (EN13986), CARB Phase II, ULEF (Ultra Low Emitting Formaldehyde)
Coating	Can be coated on request.
Standard thicknesses	16, 18 and 22 mm. Thickness tolerance +/- 1.0 mm Other thicknesses on request.
Standard sizes	Up to 1500 x 3000 mm
Fire classifications	95/28EC approval, buses E17 T18R11, buses
Machining	Drilling of holes edge machining like T&G, chamfer and rebate on request.
Other data	Detailed technical values can be found in Koskisen's Declaration of Performance (DoP). Please visit koskisen.com/download .

Sound reduction

Thickness	Sound reduction Rw dB	Weight kg / m ²
16	30	13,6 - 16,0
18	30	14,9 - 17,4

The sound reduction index R is measured in accordance with EN ISO 10140-1:2016 / EN ISO 10140-2:2010 and the weighted sound reduction index Rw is determined in accordance with ISO 717-1:2013.

Additional information

Environment

Our raw material, wood is an ecological and renewable material and it stores carbon during its whole life cycle. Koskisen plywood products are manufactured in Finland according to the strictest sustainability principles. Koskisen is a pioneer in the Finnish forest industry in paying attention to the environment and the wood's supply chain is always known in detail. Finnish forests are primarily privately owned and the owners are guided by a strong commitment to long-term forestry and forest cultivation. Yearly, Finnish forests grow more than they are harvested. This guarantees a sustainable and environmentally sound raw material.

Wood is a living material and every panel is unique. Therefore a photograph or a sample piece cannot represent a full sized panel as regards colours, shades, figure, knots etc. Please note that a slight colour variation is accepted between panels. The information, although based on extensive testing, is intended as a guideline only and comes without warranty. We reserve the right to amend specifications without notice. Any defects other than those caused by clearly verified production or service faults by the supplier are the responsibility of the user. Any claim for compensation is limited to the value of the defective panels. The Seller makes no guarantee that the goods are fit for a particular purpose, unless it provides a written declaration of their suitability.
